

OUTPUT

ACTIVITY:

Water Olympics

In class you've been researching the properties of water on the internet. Refer to your notes and think about what you have learned. Complete the following in your notebook.

A. Think about how the **water olympics** *showed* the various **properties of water**. **Write how each event shows a property of water!** See the example on the smart board or internet to help you.

B. **Did water behave in the water olympics differently than you predicted?** If so, how? If not, explain one thing that was not surprising. Be sure to do this in full sentences.
